

PAGE 2 OF 2. Cut out heaven cloud. Mount on posterboard, using cloud as a pattern, to reinforce. Punch 9 holes along bottom and 1 hole at the top, where indicated. Cut out 9 stars on page 1. Cut different lengths of thread, thin ribbon or yarn; hang stars, in order, from cloud. If using needle and thread, use needle to make a hole in the top of each star (about 1/2" from point); tie a double knot at both ends (star and cloud). If using yarn or ribbon, tape to back of each star. Thread ribbon or yarn through top hole; tie loop for hanging.

OPTIONAL: Spread glue on cloud (except over words); sprinkle glitter on Jesus and angels; apply pieces of cotton to cloud; add sequins. (If you wish to place sequins on top of cotton clouds, pour a spot of glue on a scrap paper or small paper plate; dip sequins in glue and place on cotton.) This project makes a pretty wall ornament.
